

Technical Bulletin
No: 901 – ESA-10 Remote On/Off Modification

Sample Hook Up:

Say that you have 3 cart machines, labeled "A", "B", and "C", and that you will be using them on input channels 1, 2, and 3, and that you will use secondary and tertiary tones to sequence the carts from channel 1 to 2 to 3.

CART A:

Secondary tone is wired to channel 2 "ON"
Tertiary tone is wired to channel 1 "OFF"

CART B:

Secondary tone is wired to channel 3 "ON"
Tertiary tone is wired to channel 2 "OFF"

CART C:

Secondary tone is wired to channel 1 "ON"
Tertiary tone is wired to channel 3 "OFF"
